Style Guide

Welcome to *Popular*Design!

We at Popular Design, would like to thank you for your partnership in creating fine crafted cabinetry. We value you as our customer, and we want you to experience our commitment to quality, excellence and courtesy.

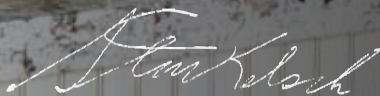

We are proud to offer some of the finest cabinets available; produced with high-grade materials and with the utmost attention to detail. We strive to ensure the perfection and beauty of each piece. Along with being dedicated to quality, we also strive for affordability. As a matter of fact, customer service is our number one goal. From the time an order is received until the job is complete, we make sure the process is handled with integrity and reliability.

We also request that you hold us accountable to the standard that we have set for ourselves. We consider each order you place with us as an investment in our relationship and we are committed to building the relationship we have with you.

Again, we would like to hear your feedback. In order for us to keep our high standard, please let us know of your experience with our service and products. Keeping this door of communication open allows us to know and fill your business needs.

Thank you for your friendship and for your business.

Sincerely,

Stanley Kelsch, President

Our Mission

Our Mission is to master Quality, Service and Teamwork in all that we do, understanding that it is a continual journey of improvement. By providing a space of both generous listening and clear communications, we promote excellence and unity within our company. We also acknowledge the Invisible Hand in all things, knowing that we are only stewards of the time, the material and the opportunities given to us.

Note

Due to printing processes, colors shown in brochure will vary from actual colors. Please make your final selections from actual samples.

Also, due to natural grain and color variations in wood, many changing environmental factors, and different processes of finish application, colors vary from piece to piece and even on the same piece. Different species, finish products and applications all have their unique characteristics which affect the outcome of the finish. These factors combined give each project its own unique look and beauty. (Note: All wood and finishes change to some extent over time due to light, air, moisture and other factors.)
